MERI SHUSHYAN

UX & Product Designer

merishushyan@gmail.com • +49 152 06914352 • Nuremberg, Germany
Portfolio: **merishushyan.github.io/portfolio** • **behance.net/maryshushyan** • **linkedin.com/in/merishushyan**

PROFESSIONAL SUMMARY

Research-led UX & Product Designer with 3+ years of experience designing end-to-end digital products for B2B platforms, marketplaces and govtech across web, iOS and Android, including a mission-critical government app used nationwide in Armenia. Strong in user research, usability testing, prototyping and design systems, backed by an MA thesis on AI-generated vs human-made prototypes (96.7% vs 56.7% task completion). Experienced owning the product design process in Agile cross-functional teams, collaborating with developers, product managers and stakeholders to drive product decisions from discovery to delivery. Uses AI in research and prototyping, including vibe coding with Claude Code. Based in Germany.

WORK EXPERIENCE

UI/UX Designer

Visable Labs · Design and User Research · Berlin, Germany 2023-2025

- Led UX and UI for B2B campaigns and landing pages in the performance marketing team across 10+ EU markets, including DACH, within Agile sprint cycles.
- Designed conversion-focused landing pages and campaign assets for Google Ads, Meta, SEA, lead generation, brand awareness and email, iterating continuously based on A/B test results.
- Rebuilt finalised Figma designs directly in HubSpot for live deployment and managed A/B test variants in parallel, reviewed performance data post-launch, and iterated based on results.
- Introduced Figma into the workflow and established a structured design process, which reduced design-to-deployment time and enabled collaboration across design, marketing and development.
- Maintained Figma component libraries and design systems, which sped up developer handoff and kept the UI consistent.

UI/UX Designer

Locator CJSC · Yerevan, Armenia 2021-2022

- Designed end to end the UX and UI of a government-supported, real-time data entry and monitoring app for ambulance crews, built in Figma across iOS, Android and responsive web.
- Ran on-site research in hospitals, observing paper-based workflows and interviewing 8+ paramedics, dispatchers and medical staff; validated design decisions with crews and the project manager before development.
- Delivered full design artifacts: user flows, wireframes, interactive prototypes and high-fidelity UI, ensuring a consistent experience across mobile and web platforms.
- Supported cross-functional teams across product, development and stakeholder groups, facilitating alignment between user needs, business goals and technical constraints.
- As a result, the product was developed and deployed for the Armenian national ambulance service and is now used nationwide in all hospitals in Armenia.

Associate Product Owner

Draper Walled Garden · Fintech · Yerevan, Armenia 2020-2021

- Developed the content structure and information architecture for a swipe-based fintech investment app for angel investors.
- Assisted with user and market research to inform early product decisions and validate the user flow design.
- Shaped product positioning and aligned business and user needs with development and product teams.

EDUCATION

MA International Marketing · Focus on UX research 2022-2025
Technische Hochschule Nürnberg Georg Simon Ohm · Nuremberg, Germany
Thesis: Rapid Prototyping, AI vs Human Approach. Usability study (N=15, 3 conditions; TCT, TCR, UEQ+; Lookback).

MSc Economics, Innovation and Change, University of Jena, Germany 2018-2020

BA Economics and Management of Enterprises, ASUE, Yerevan, Armenia 2014-2018

SKILLS

UX Research: User Research · Usability Testing · Qualitative & Quantitative Research · A/B Testing · Performance Metrics
UX Design: Wireframing · Rapid Prototyping · User Flows · Information Architecture · Design Systems · High-Fidelity UI · Responsive Design · Mobile UX (iOS & Android)
Methods: User-Centered Design · Design Thinking · Agile/Scrum · Stakeholder Facilitation · Problem Framing · Feedback-driven Iteration · AI Evaluation & Testing · AI-assisted Design · Prompt Engineering · Vibe Coding

TOOLS

Figma (components, auto-layout) · Sketch · Adobe Illustrator · Affinity Designer · Miro · Lookback · Hotjar · HubSpot · Webflow · Jira · Claude Code · Midjourney · Lovable · Python (data visualization)

LANGUAGES

English: C2 (Fluent) · German: A2 (actively learning) · Russian: C2 (Native) · Armenian: C2 (Native)
